

Aryan Rank

MERN Stack Developer

aryanpatel0344h@gmail.com — +91-9016634606 — Ahmedabad, Gujarat
linkedin.com/in/aryan-rank — aryan-rank.github.io/portfolio — github.com/aryansojitra

Professional Summary

Motivated MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Strong foundation in JavaScript, HTML, and CSS. Quick learner with a positive attitude and strong problem-solving skills, eager to contribute to real-world projects and grow in a collaborative environment.

Technical Skills

- **Languages:** JavaScript, ES6
- **Frontend:** React.js, HTML, CSS, Tailwind CSS, Responsive UI
- **Backend:** Node.js, Express.js, REST API Development
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Concepts:** API Design, MVC Architecture, CRUD Operations, Role-Based Access Control, OOPS, Validation, Error Handling, Caching, Lazy Loading
- **Deployment:** Vercel, Environment Variables

Projects

AgriAther – Agricultural E-Commerce Platform

Live Demo — GitHub

- Built a full-stack MERN application supporting multiple user roles (Customer, Supplier, Admin, Visitor) for complete agricultural product lifecycle
- Designed scalable system architecture with modular MVC pattern, enabling efficient management of products, categories, cart, and orders
- Implemented secure authentication and authorization using JWT with role-based access control for different user types
- Developed RESTful APIs for product management, order processing, feedback system, and real-time order tracking
- Engineered dynamic cart and checkout system ensuring smooth user experience and accurate transaction handling
- Built responsive frontend using React.js and Tailwind CSS with reusable components and optimized UI performance
- Integrated frontend with backend APIs using Axios/Fetch ensuring seamless data flow and state management
- Implemented validation, error handling, and optimized database queries for performance and scalability
- Designed database schema for efficient handling of users, products, orders, and feedback using MongoDB

Blogify – Full-Stack Blogging Platform

Live Demo — GitHub

- Built a full-stack MERN blogging platform enabling users to create, edit, delete, and manage blog posts with secure authentication
- Designed modular backend architecture using Node.js and Express.js, following MVC pattern for scalability and maintainability
- Implemented JWT-based authentication and authorization to protect routes and ensure secure user sessions
- Developed RESTful APIs for blog management, user operations, and content handling with proper validation and error handling
- Engineered dynamic and responsive frontend using React.js with reusable components for seamless user interaction

- Integrated frontend with backend APIs using Axios ensuring efficient data flow and real-time updates
- Designed MongoDB schema for users and blogs optimizing data retrieval and storage efficiency
- Implemented features like user-specific dashboards, blog CRUD operations, and structured content rendering

Internship Experience

Solutions Architecture Job Simulation — Forage

Certificate — Forage

- Designed a simple and scalable cloud hosting architecture for real-world business scenarios
- Analyzed system requirements and structured architecture for performance, scalability, and reliability
- Applied concepts of distributed systems, load handling, and infrastructure planning
- Developed understanding of real-world solution design and deployment strategies

Data Visualisation Job Simulation — Forage

Certificate — Forage

- Analyzed business scenarios and translated requirements into effective data visualisation strategies
- Selected appropriate charts and visual techniques to communicate insights clearly
- Created structured visual outputs to support decision-making and business understanding
- Demonstrated ability to interpret data and present actionable insights

Education

Bachelor of Computer Applications (BCA)

April 2026

St. Xavier's College (Autonomous), Ahmedabad

CGPA: 7.96 / 10 Sem 1: 7.95 — Sem 2: 8.11 — Sem 3: 7.33 — Sem 4: 8.64 — Sem 5: 7.76

HSC (12th) – Gujarat Board

2023

Shree Gyan Bharti School, Junagadh

86.93%

SSC (10th) – Gujarat Board

2021

madhyamik shala, Shilana

75%

Languages

English – Professional — **Hindi** – Fluent — **Gujarati** – Native

Additional Information

- Good Communicator and Good Listener with strong interpersonal skills
- Strong focus on clean and modular code, scalability, and performance optimization
- Quick learner with ability to adapt to new technologies and frameworks
- Built and deployed multiple full-stack applications with authentication and API integration
- Strong interest in backend and frontend development and scalable systems
